Creative / Motivated / Passionate / Eager / Hard-Working / Dedicated

These are just a few of the words that have been used by producers and directors to describe me. Active in the Chicago Film Industry since 2005, I am a junior in Columbia's Film School looking to pursue continued on-the-job training with filmmakers, such as yourself, who are working on quality projects in Chicago as I continue my classroom education toward a degree in film. At the same time, I am a junior at Purdue University studying Radio and Television.

I have worked in a variety of positions, such as a PA, Grip and Script Supervisor on dozens of films and have received six IMDB credits. I believe I will be a good fit for your current project and hope, after reading my resume, you feel the same.

I look forward to speaking with you at your earliest convenience.

Sincerely,

Josh Carlascio
